Introduction

MageMob Admin is a Magento based Manager Mobile Application that helps you to manage your Magento store backend from your mobile. Using Magento Store Admin Mobile App and extension, you can manage orders, get customer details/sales reports, manage customer reviews, get notifications of important events and do much more!

Access your store through your app anytime, anywhere. The enterprise version of this extension is used to manage inventory of products.

Benefits of MageMob Admin

- It helps manage your Magento store easily.
- Helps manage customers, orders, products etc.
- Builds a loyal relationship with customers by providing a transparent sales experience.
- Access anytime, anywhere. At work, at home, on the go.
- It is used to increase sales and revenue.
- It will help you improve the accuracy of inventory orders. Helps you figure out how much inventory you need to have on hand.
- Helps manage customers & products on the move.
- Enhanced authentication security for the application and system.
- Provides multiple store support.
- It is useful for keeping track of sales data with graphical representation.
- This Inventory Management Strategy will help you save time and money. It would help you have time and monetary benefits.
- The Barcode scanning module integrated in this system will help you scan the barcode of products and also enter a unique barcode on your own. The Barcode scanning devices will be configured with the system and will help eliminate the manual process so that your employees can focus on more important areas of business.

Installation & Activation

Prerequisites

- This extension is dependent on default inventory settings of Magento
- This can be checked from **System -> Configuration -> Catalog -> Inventory**
- Expand the **'Product Stock Options'** and set the **'Manage Stock'** option to **'Yes'**

Installation Steps

Step 1: Check Permissions

- Make sure the "app" and "lib" directories of your Magento and all directories inside it have full written permissions or set permissions on each directory equal to 777 or 0777.

Important! Change all permissions back after installation.

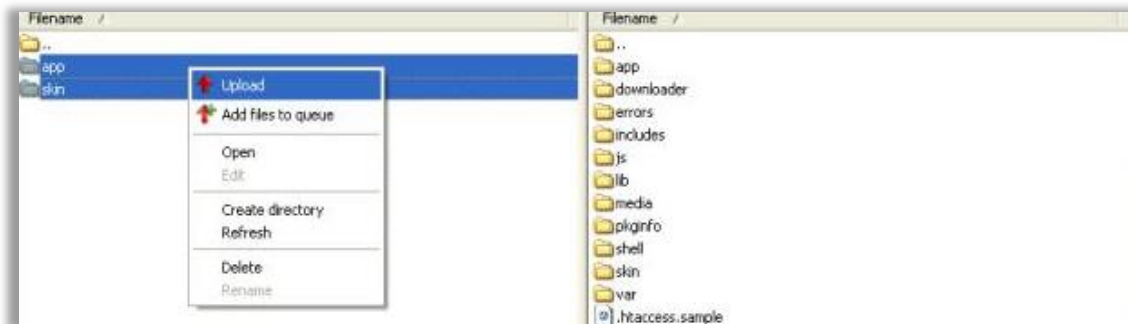

- Read more about permission at http://www.magentocommerce.com/wiki/magento_filesystem_permissions

Step 2: Disable Compilation

- Log into Magento **Admin Panel** and go to **System -> Tools -> Compilation** and disable the compilation.
- After **step 5** you can run the compilation process again.

Step 3: Upload Files

- Upload all folders from the extension package to the installation directory of your Magento software using an FTP client.

Step 4: Clear cache

- Go to **System -> Cache Management**
- Clear the store cache.

Step 5: Re-login

- Log out and log back into **Magento Admin Panel**

Step 6: Use Extension

- Go to **System -> Configuration**.
- In the left column you will see the new tab – **Biztech Extensions**.

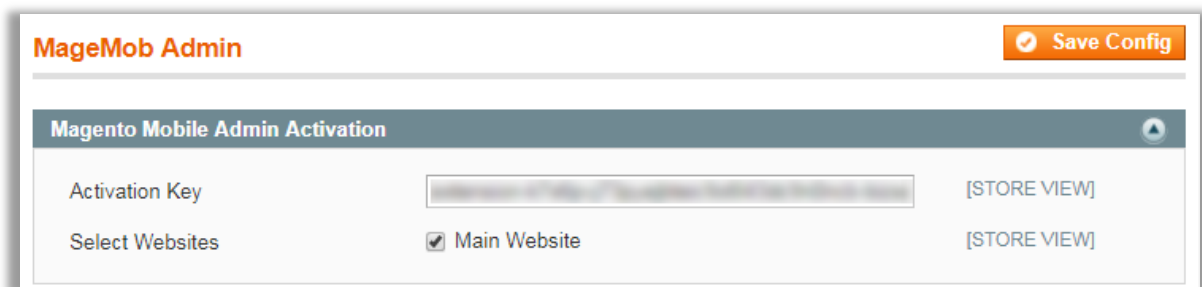

Extension Activation

Copy an activation key

- Copy the activation key from the Order Confirmation Mail. OR
- Log into your account at www.appjetty.com using the email and password you have provided at checkout process.
- Go to Downloadable Options and copy the activation key for the **MageMob Admin** extension.

Activate the extension

- Log into **Magento Admin Panel** and go to **System Configuration -> Biztech Extensions/MageMob Admin Activation** and enter the activation key in the '**Activation Key**' field for the **MageMob Admin** extension then click the '**Save Config**' button.

How it Works?

Back End Configuration

- Please follow the below steps to configure **MageMob Admin** extension.
- Go to **System -> Configuration**
- From the left column navigate to **Biztech Extensions -> MageMob Admin**

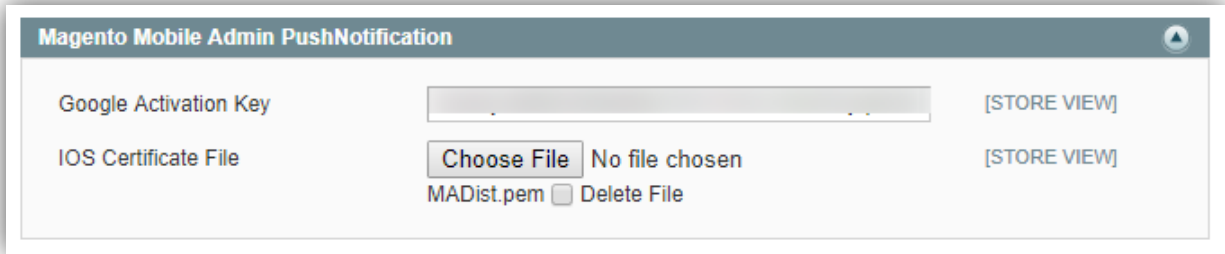

Professional & Professional+ version:

- To view Pending Reviews, navigate to **Reviews -> Pending Reviews**. A list of Pending reviews with its details will be displayed.
- Admin can Edit and Delete reviews from this list. Thereafter admin can also update the Status of the Reviews from the **'Actions'** icon.
- Admin can also Sort or Search the records using various filters for fields in the grid.

The screenshot displays the 'REVIEWS' section in the MageMob Admin interface. On the left, a list of reviews is shown with columns for product name, SKU, and rating. The selected review is 'Geometric Candle Holders' (SKU: hdd006) with a 4.0 star rating, reviewed by 'Eva', and its status is 'Pending'. The right-hand panel provides a detailed view of this review, including the product title, a 4.0 star overall rating, and three category-specific ratings: Price (4.0★), Value (3.0★), and Quality (5.0★). The review text is a placeholder 'Lorem Ipsum' paragraph. Below the text, it shows the reviewer's name 'Eva' and the timestamp 'Posted on: 2018-08-01 12:56:45'. At the bottom right of the review details, there are three action buttons: 'Approve' (with a checkmark icon), 'Reject' (with an 'X' icon), and 'Delete' (with a trash can icon). A fourth 'X' icon is also present below these buttons.

Charts for Interactive Sales Reports

- Admin can generate charts for sales which would help in staying up to date with the sales of their store.
- Charts can be generated for various filters:
 - Country Based Sales Chart
 - Average Item / Order Chart
 - Most Wish-listed Product Chart
 - Best Seller Item Chart
- Charts can be generated for different criteria such as:
 - Last 24 Hours Sales
 - Last 7 Days Sales
 - Last 30 Days Sales
 - Last 1 Year Sales

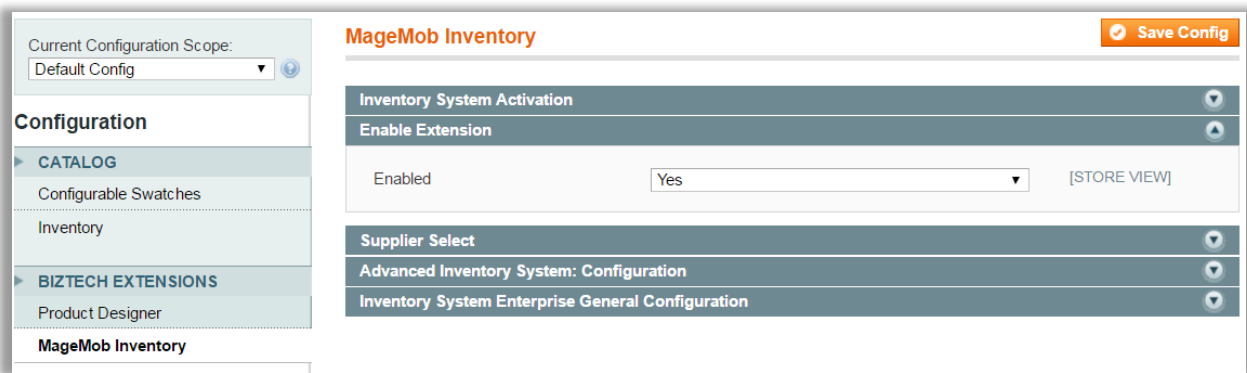

Ultimate Version:

- These are some features of MageMob Inventory which are supported with mobile to use the features perform following steps:
- Go to **System -> Configuration**
- In the left column you will see the tab **Biztech Extensions -> MageMob Inventory**.

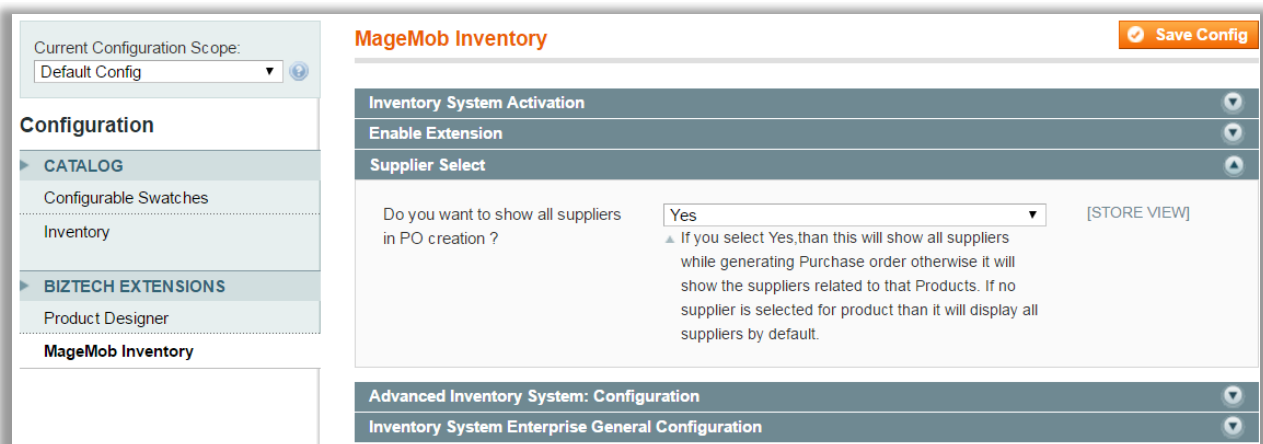

Enable Extension

- Select **‘Yes’** to enable the extension.

Select Supplier

- Select **‘Yes’** to show all suppliers in Purchase Order creation.

Inventory System Enterprise General Configuration

- Refer **‘General Configuration’** of **‘Professional and Professional +’** version for the Configurations.

Manage Stock

- It allows the admin to increase/decrease the quantity of the product rather than giving total quantity. The increased/decreased quantity gets directly reflected in selected warehouse.
- Admin can Sort or Search the records using various filters for fields in the grid.
- Admin can also export these products in CSV format but the decreased quantity must not be more than total available quantity in warehouse.

The screenshot displays the 'Manage Stock' interface in the MageMob Admin. On the left, a sidebar shows 'Categories' with options like 'New Arrivals', 'Shirts', 'Tees, Knits and Polos', 'Pants & Denim', and 'Blazers'. The main area is titled 'Shirts' and contains a table with the following columns: Rack#, SKU, Avail. Qty, Units, Inc/Dec, In stock, and Enable?. The table lists several 'Plaid Cotton Shirt' and 'Slim fit Dobby Oxford Shirt' items. A modal form is open for the 'Plaid Cotton Shirt' with SKU 'msj006', showing a 'Warehouses' dropdown set to 'Venetory' and an 'Avail. Qty' of 21. The modal includes a 'Comment:' field and 'CANCEL' and 'UPDATE' buttons.

Rack#	SKU	Avail. Qty	Units	Inc/Dec	In stock	Enable?
N/A	msj008	24	Ordered Qty	Incre...	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
N/A	msj007	85	Ordered Qty	Incre...	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
N/A	msj006	21	Ordered Qty	Incre...	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Warehouses		Venetory	Avail. Qty	21		
Comment:					CANCEL	UPDATE

N/A	msj003	28	Ordered Qty	Incre...	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>

Purchase orders

- Go to **MageMob Inventory** -> **Purchase Orders**. Admin can select products or orders to generate purchase orders. Click on **'Create PO'** to generate new PO.
- Admin can Sort or Search the records using various filters for fields in the grid.

The screenshot displays the 'Purchase Orders' section of the MageMob Admin interface. On the left, a table lists several purchase orders with their IDs, total amounts, and statuses. On the right, a detailed view for PO-10000033 is shown, including order items, PO details, and stock received information.

PO ID	Total Amount	Status
#PO-10000033	\$1680.00	Processing
#PO-10000034	\$590.00	Pending
#PO-10000031	\$2240.00	Completed
#PO-10000032	\$1375.00	Processing
#PO-10000030	\$140.00	Pending
#PO-10000029	\$5400.00	Pending
#PO-10000028	\$4480.00	Pending
#PO-10000027	\$12.00	Pending
#PO-10000026	\$40.00	

Order Items	PO Details	Stock Received
Motorola Moto G5 Plus (Black)		
SKU: moto_g5_plus1	Ordered Qty: 6	Received Qty: 3
Warehouse: Waresy		Unit Cost: 280.00
		Add Qty: <input type="button" value="-"/> <input type="text" value="3"/> <input type="button" value="+"/> <input type="button" value="✓"/>

- Admin can select the supplier for each of the individual products.

- Purchase orders are generated based on the supplier selected i.e. If admin selects two or more products from the same supplier then the **‘Required quantity’** would be added and the **‘Unit cost’** would be the average of all the individual product costs.

The screenshot shows the 'Create Purchase Order' interface. At the top, there's a 'Back' button. Below it, a header reads 'Add Product for Purchase order'. A pagination bar shows 'Page 1 of 26 pages | View 20 per page | Total 513 records found', along with 'Reset Filter' and 'Search' buttons. The main table has columns: Select, ID, Name, SKU, Quantity Available, Supplier, Warehouse, Unit Cost, and Row Total. A 'Configure Product' modal is open over the row for ID 902, 'Plaid Cotton Shirt-Royal Blue-L', with a 'Quantity' input field set to 5. The modal has 'Cancel' and 'OK' buttons. The table lists various products like 'Test Simple', 'test configurable green', and 'Plaid Cotton Shirt' in different colors and sizes, with their respective SKUs, quantities, suppliers, warehouses, and unit costs.

Select	ID	Name	SKU	Quantity Available	Supplier	Warehouse	Unit Cost	Row Total

- php_soap and php_openssl PHP extensions should be enabled.
- Login with your created '**Magento**' user credentials to use our app.
- To ensure smooth working of this extension, you need to download this extension in your website and also download MageMob Admin on your device from Play Store or App Store.
 - **App Store link:**
<https://itunes.apple.com/us/app/magentomobilemanager/id695074519?mt=8&ign-mpt=uo%3D4>
 - **Play Store link:**
<https://play.google.com/store/apps/details?id=com.biztech.magemobadmin>

Ultimate Version

- Products in all the modules of MageMob Inventory will only be visible if they are assigned to the website selected while purchasing the Extension.
- Limit of quantity of product to be out of stock is configured from Magento admin.
- In Pending orders, only those sales orders will be displayed which are placed from the store/website selected at the time of purchasing Extension.
- If same products are there in more than one pending orders selected for generating purchase orders, you can remove the product from selection. Otherwise, it will take the average of the unit cost entered for that product based on the summation of the required quantity entered.
