Introduction

Crafito is a specialized and well-crafted theme for e-commerce industry. It is developed mainly for e-commerce industry. It provides numerous snippets with various possible options for customizing store and providing an attractive look & feel. Crafito has inbuilt apps like Advance Mega Menu & Custom Product Image Gallery for admin to represent the products and its categories & subcategories effectively.

Benefits of Odoo Crafito Theme

- Many snippets are provided with various possible options for customizing store and providing an attractive look & feel.
- It has many inbuilt apps like Advance Mega Menu and Custom Product Gallery to represent product's categories and subcategories.

Pre-requisites

- Following points must be followed before starting the plug-in installation:
 - You should login as an Admin in Odoo.
 - Check that your Odoo Instance is compatible for Crafito Theme.
 - An e-commerce module should be present in your instance to use this theme.

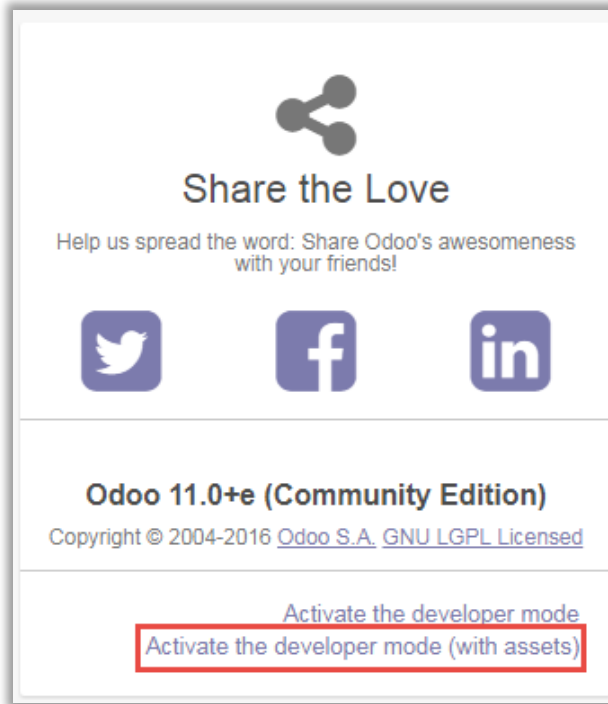

Note: Crafito Theme v11's and v12's all new features are not available in v8, v9 and v10.

Installation

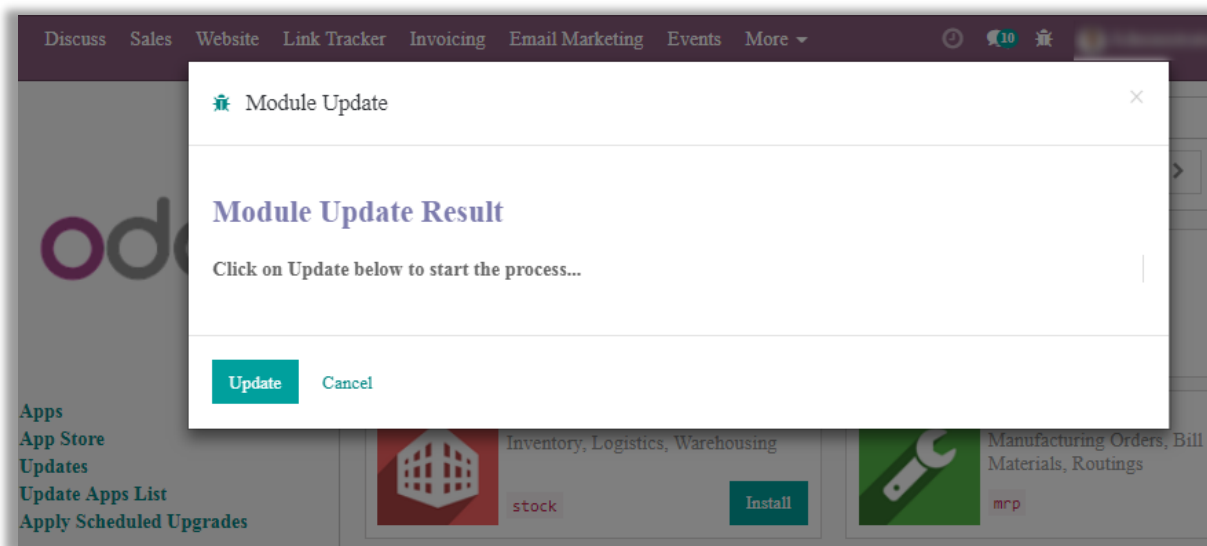

Installation Steps

- Download and extract the zip file.
- Check your Odoo add-ons path.
 - It should be same as defined in Odoo Config file.
 - Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
 - **Open Config file:**
 - Give the command: `sudo/etc/odoo.conf`
 - Config file content: `addons_path = /opt/odoo/addons`
- Open Terminal and go to download location
 - For e.g. if the download location path is: `/home/odoo/Downloads` then the command to be written in the terminal would be: `cd/home/odoo/Downloads`
- Copy download modules to addons path
- Give the below mentioned commands to perform copy operation:
 - `$cd /home/odoo/Downloads/theme_crafito`
 - `$cd v11`
 - `$sudo cp theme_crafito /opt/odoo/addons`
- Restart Odoo server
- Login with the admin credentials in your odoo instance.

- Activate the Developer Mode
 - To activate Developer Mode, Go to **Settings -> Activate the developer mode (with assets)**. Click on **'Activate the developer mode (with assets)'** and developer mode will be activated.

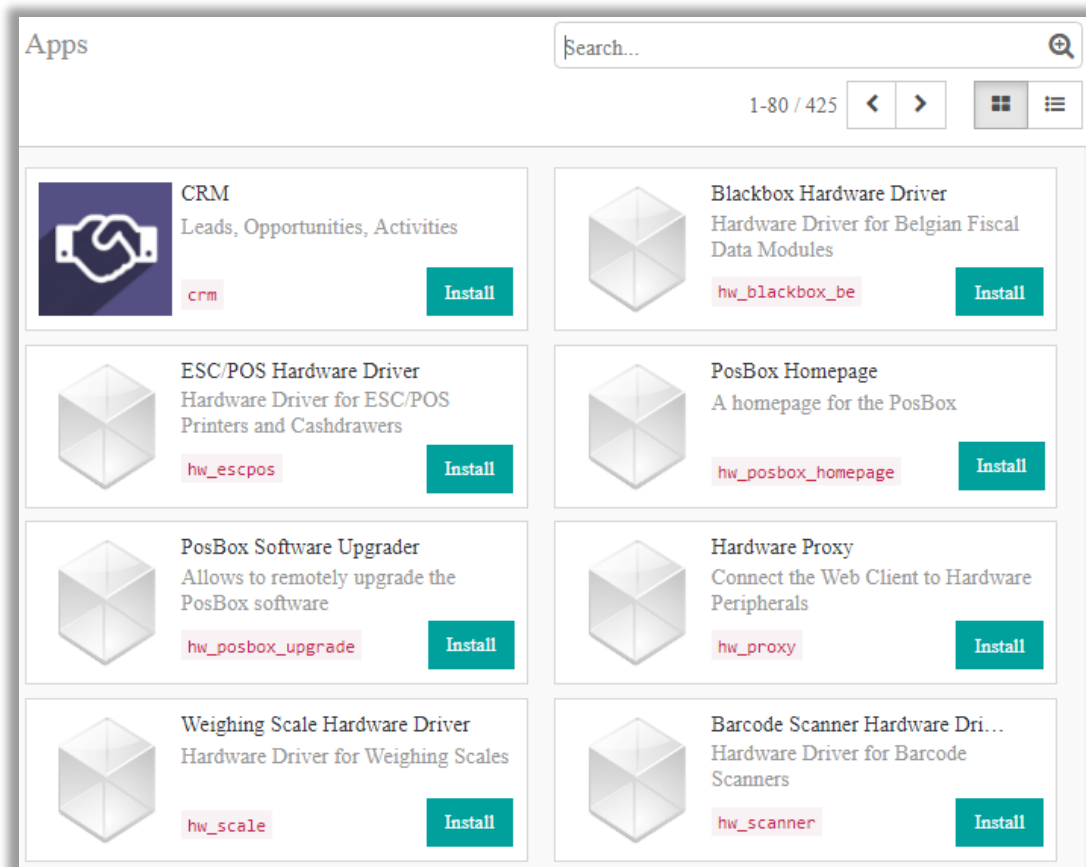

- Go to Settings/Update Apps List.
 - Click on **'Update'** button.

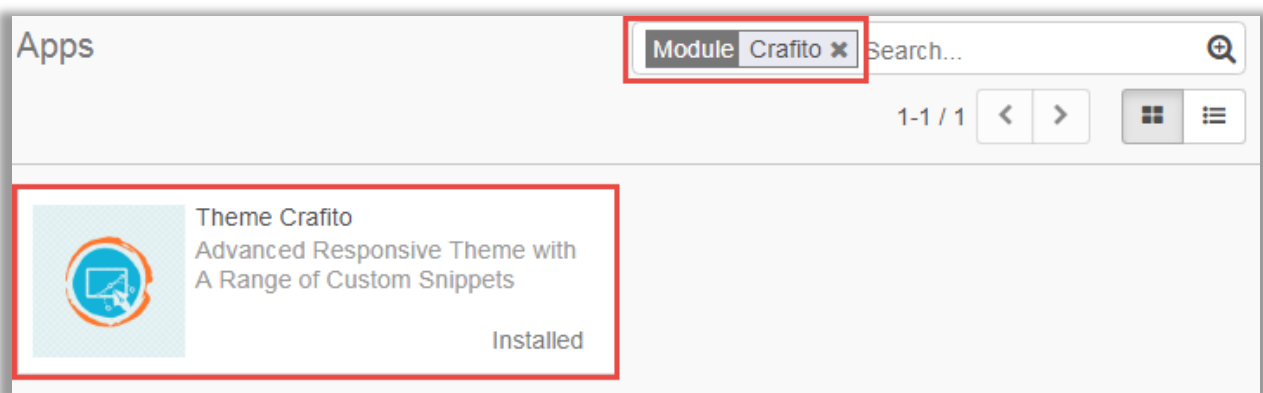

USER MANUAL: Odoo Crafito Theme

- Go to Settings/Apps
 - Remove search filter

- Enter module name in the search box provided in the top right corner of the page. For e.g. here write "Crafito".
- Click on 'Install' button.

Access Rights Management

- Now after installing the theme, to manage the access rights of users go to **Settings -> Manage access rights**.
- By clicking on it you will be redirected to the Users module. Thereafter navigate to the detail page of the particular user for which you want to manage the access rights.
- Now under '**Access Rights**' tab from '**Website**' dropdown list select the '**Editor and Designer**' option to let the particular user modify the '**Slider Configurations**'.

The screenshot shows the user management interface for a user named Mike. At the top, there is a breadcrumb trail: "Dashboard / Users / Mike". Below this, there are "Save" and "Discard" buttons, and a page indicator "2 / 2" with navigation arrows. The user's profile information is displayed, including a photo of Mike, his name "Mike", and his email address "mike@appjetty.com". A status indicator shows "Active" with a checkmark. Below the profile information, there are two tabs: "Access Rights" (selected) and "Preferences". The "Access Rights" section is titled "Application Accesses" and lists various applications with their corresponding access levels:

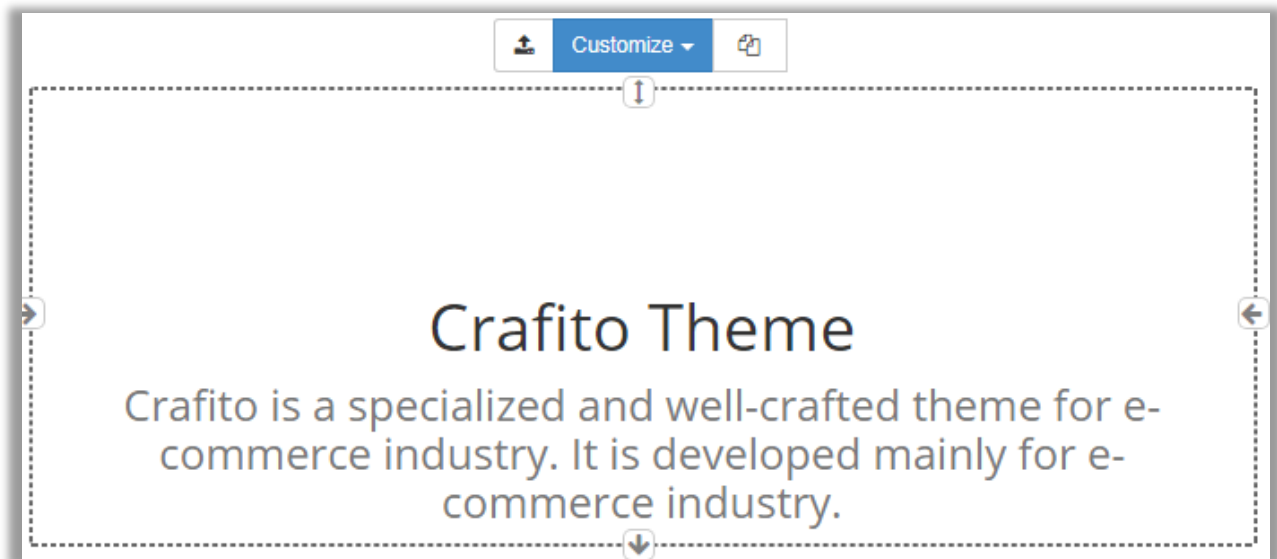

Application	Access Level
Sales	User: Own Documents Only
Accounting & Finance	Billing
Employees	Employee
Events	User
Mass Mailing	
Website	
Administration	Restricted Editor Editor and Designer

Note: If the '**Restricted Editor**' option is selected user won't be able to edit the '**Slider Configurations**' options.

Theme Configuration

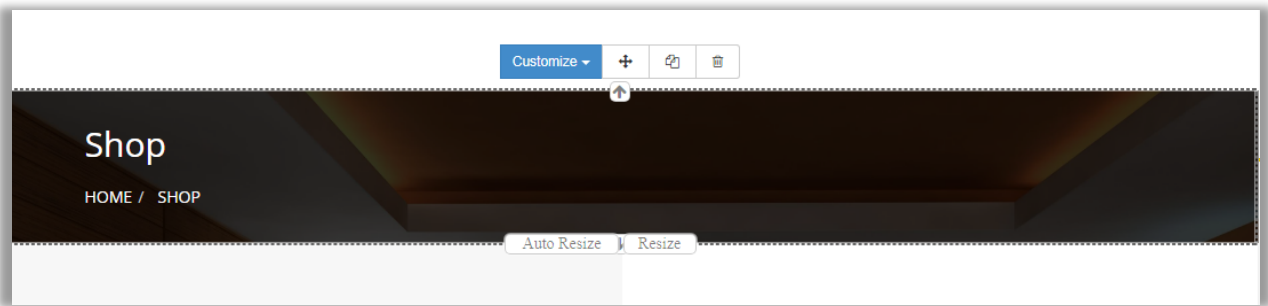

Configuring Main Title Snippet

- Go to **Website -> Edit -> Insert Blocks -> Main Title**. Drag and drop Main Title Snippet on the page where you want it.
- Click on **Customize** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- Click on any Text to customize text of the Title Block. Click on the Title to customize Title of the block.

Configuring Upper Banner Snippet

- Go to **Website -> Edit -> Insert Blocks -> Upper Banner**. Drag and drop Upper Banner Snippet on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- For Breadcrumbs you can set links for the pages as well as unlink them upon requirement.

Configuring Home Slider Snippet

- Go to **Website -> Edit -> Insert Blocks -> Home Slider**. Drag and drop Upper Banner Snippet on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- You can click on any image to change the image or remove the image. Along with image you can also add Text, Document, Pictogram and Video to the snippet. You can also Manage Slideshow speed along with number of slides in the snippet.

- You can also add text to the banner along with any button that can redirect your customer to any page. You can also manage links of the button by clicking button and then clicking on link button.

- Go to **Website -> Edit -> Insert Blocks -> Showcase / Showcase 4 Columns / Showcase 2 Columns**. Drag and drop any of the 3 Snippets on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- You can customize every block of the snippet. You can customize single Showcase block as well as combined Showcase blocks. You can click on any image to change the image or remove the image. Along with image you can also add Text, Document, Pictogram and Video to the snippet. You can also change images of the multiple tabs as per requirement
- **Showcase 4 Column**

- Showcase 1 column

- Showcase 2 Column

Configuring Our Team Snippet

- Go to **Website** -> **Edit** -> **Insert Blocks** -> **Our Team 1 / Our Team 2 / Our Team 3**. Drag and drop any of the 3 Snippets on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- **Adding Team Members to the Snippet**
 - Go to **'Employees'**. Click on the employee which you want to add in the snippet.
 - Click on **'Edit'** and go to **'Slider Configuration'** and check the **'Enable to make the employee visible in snippet'** checkbox to make the employee visible in snippet option.

The screenshot shows the 'Employees / Famke Jenssens' page in Odoo. At the top, there are 'Save' and 'Discard' buttons, and a page indicator '5 / 22' with navigation arrows. Below the header, there is a profile card for 'Famke Jenssens' with a photo, name, and status 'Unpublished On Website' and 'Active'. The card also shows roles 'Sales' and 'Employee' and a dropdown menu with 'e.g. Part Time'. Below the profile card, there are tabs for 'Work Information', 'Private Information', 'HR Settings', and 'Slider Configuration'. The 'Slider Configuration' tab is active, and the checkbox 'Enable to make the employee visible in snippet' is checked. Below this, there are input fields for 'Twitter account', 'Facebook account', and 'Linkedin account', and a text area for 'Short description about employee'.

Configuring Promo Block Snippet

- Go to **Website -> Edit -> Insert Blocks -> Promo Block**. Drag and drop Promo Block Snippet on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- You can customize every block of the snippet. You can customize single product block as well as combined product blocks. You can click on any image to change the image or remove the image. Along with image you can also add Text, Document, Pictogram and Video to the snippet

Share Products / Services

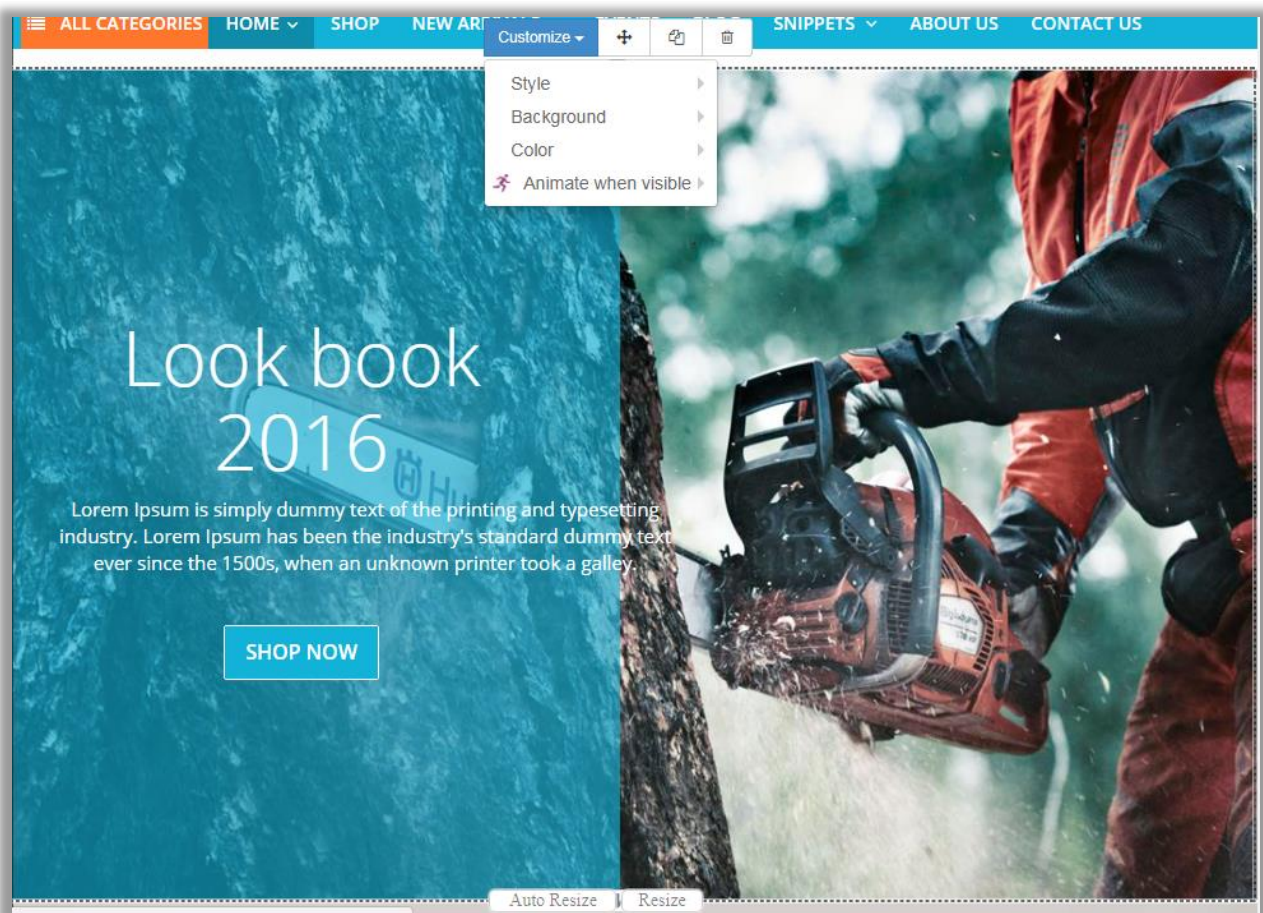

- Now you can let your customers easily share the products or services directly from their details page.
- To share the products / services navigate to details page of the product and click on any of the below icons:
 - **Facebook:** To share the product on facebook.
 - **Twitter:** To share the product on twitter.
 - **LinkedIn:** To share the product on LinkedIn.
 - **Google +:** To share the product on google+.

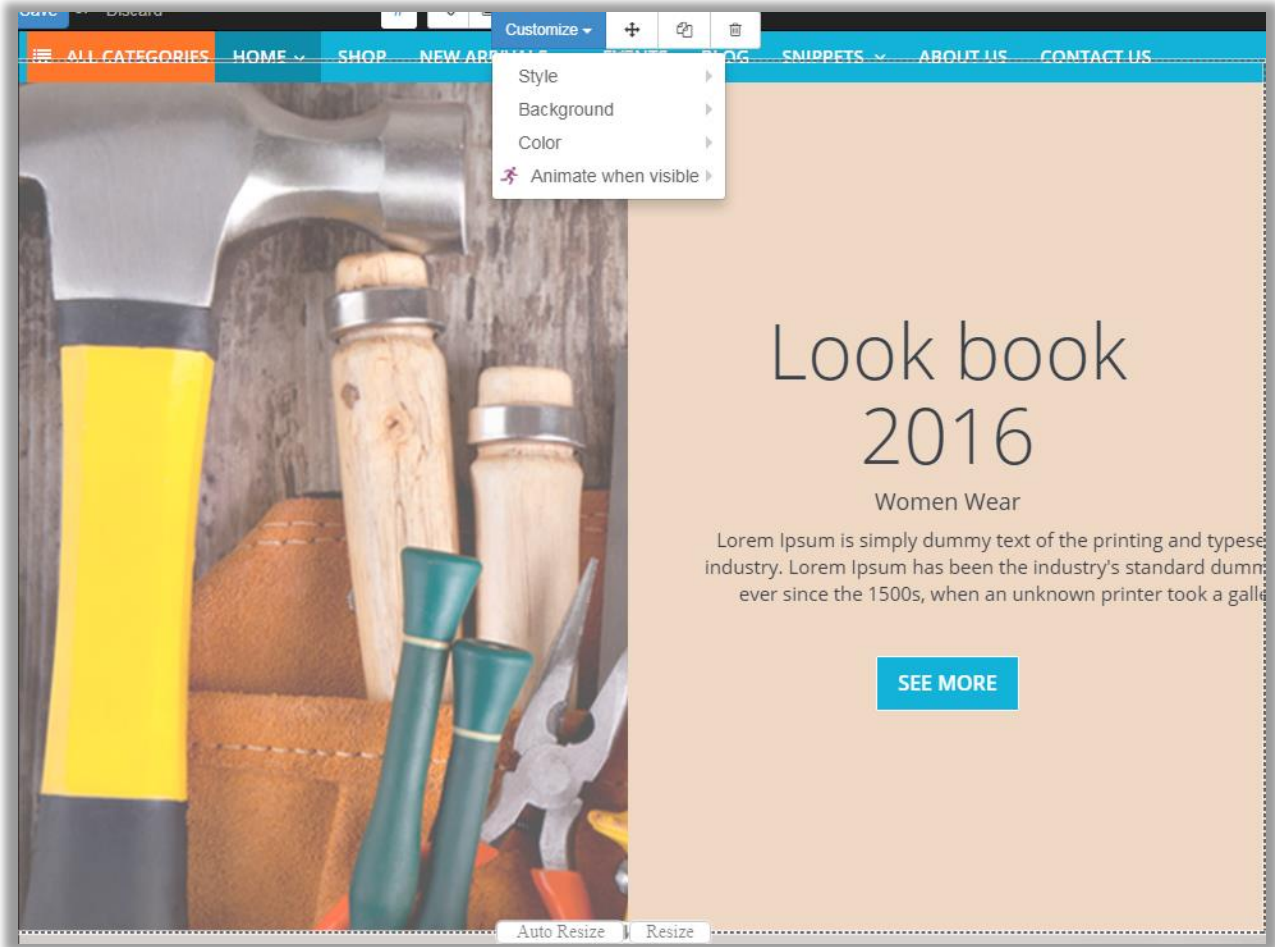

The screenshot displays a product page for a "Mini Bluetooth Speaker". On the left is a dark, rectangular product image. To the right, the product name "Mini Bluetooth Speaker" is shown above a five-star rating (all stars are empty) and the text "0 review(s) | Add your review". The price is listed as "\$ 247.00" with the description "smallest portable Bluetooth speaker" below it. A quantity selector shows a minus sign, the number "1", and a plus sign. Below this is a green "ADD TO CART" button with a shopping cart icon. At the bottom of the product details are social sharing icons for Facebook, Twitter, LinkedIn, and Google+, which are highlighted with a red border. At the bottom left of the page, there are two tabs: "DESCRIPTION" (highlighted in green) and "REVIEWS".

Configuring Text and Image Blocks

- Go to **Website** -> **Edit** -> **Insert Blocks** -> **Text + Image / Image + Text**. Drag and drop any of the 2 Snippets on the page where you want it.
- Click on **'Customize'** to customize Style, Background and Color of the Snippet. You can Move, Copy and Delete the snippet from here. You can also resize the Snippet as per the need.
- You can customize text and images of the block. Image will be set as the background of the snippet. You can add text as well as button to the snippet which will be used to navigate customer to specific product page.
- **Text + Image**

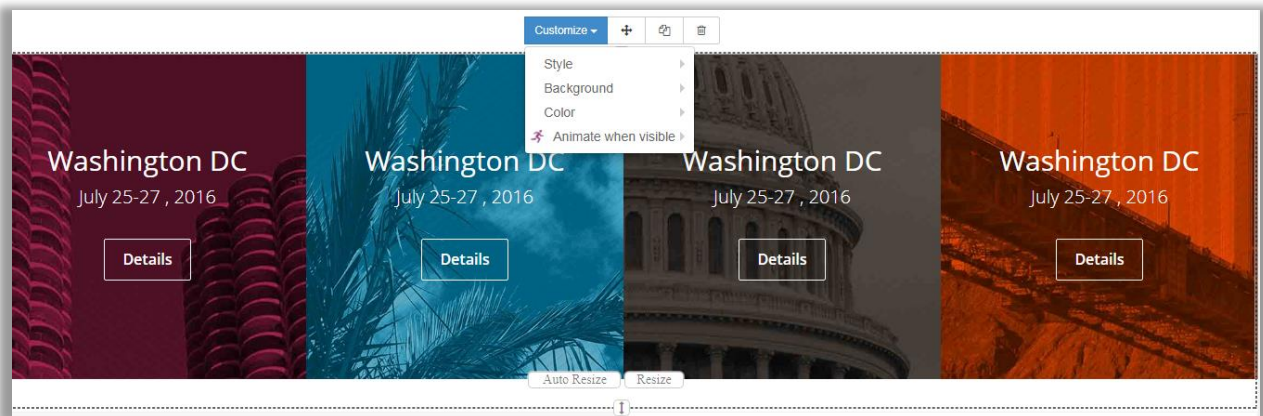

- Image + Text

Q **What is Lorem Ipsum ?**
 Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s , when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum .

- FAQ 3

The screenshot displays a user interface for the Odoo Crafito Theme. At the top, there is a 'Customize' dropdown menu followed by three icons: a plus sign, a refresh icon, and a trash icon. Below this is a navigation bar with four buttons: 'Home', 'Menu 1', 'Menu 2', and 'Menu 3'. The main content area contains two identical FAQ items. Each item has a blue header with a white question mark icon and the text 'What is Lorem Ipsum?'. The text below each header describes Lorem Ipsum as dummy text used in the printing and typesetting industry, mentioning its history since the 1500s and its use in desktop publishing software like Aldus PageMaker. At the bottom of the interface, there are two buttons: 'Auto Resize' and 'Resize'.

Advance Mega Menu Settings

Creating Mega Menu

- Go to **Website -> Configuration -> Pages**. Now you can either select a page or create a new page for creating a mega menu for it.
- To create mega menu for a new page, click on **'Create'** Button. Now enter the relevant page details and click on **'Add an Item'** link under **'Related Menu Items'** to create the mega menu.
- There you will have options to add website, name of menu, URL for menu, Option to open menu in new window, Parent Menu & select whether the new menu is mega menu or not.

Create Related Menus [Close]

Website: Website localhost [External Link]

Menu: Mega Menu

Url: [Empty]

New Window:

Parent Menu: Top Menu [External Link]

Is megamenu...?:

[Save & Close] [Save & New] [Discard]

Note:

- Select **'Top Menu'** option from **'Parent Menu'**.
- To configure and manage the MegaMenu kindly activate the developer mode (with assets) from Settings module.
