Introduction

The Kingfisher Pro Fashion Theme is a CMS theme which helps you to enhance your website visibility using color combination and different snippets. It is specifically made for Fashion Industry.

Benefits of Kingfisher Pro Fashion

- This theme will beautify the website using various snippets.
- This theme is specially made for Fashion Industry.

Pre-requisites

- Following points must be followed before starting the plug-in installation:

    - You should login as an Admin in Odoo.
    - Check that your Odoo Instance is compatible for Kingfisher Pro Fashion Theme.
    - An e-commerce module should be present in your instance to use this app.

Note: Kingfisher Pro Fashion Theme v11's and v12’s all new features are not available in v8, v9 and v10.

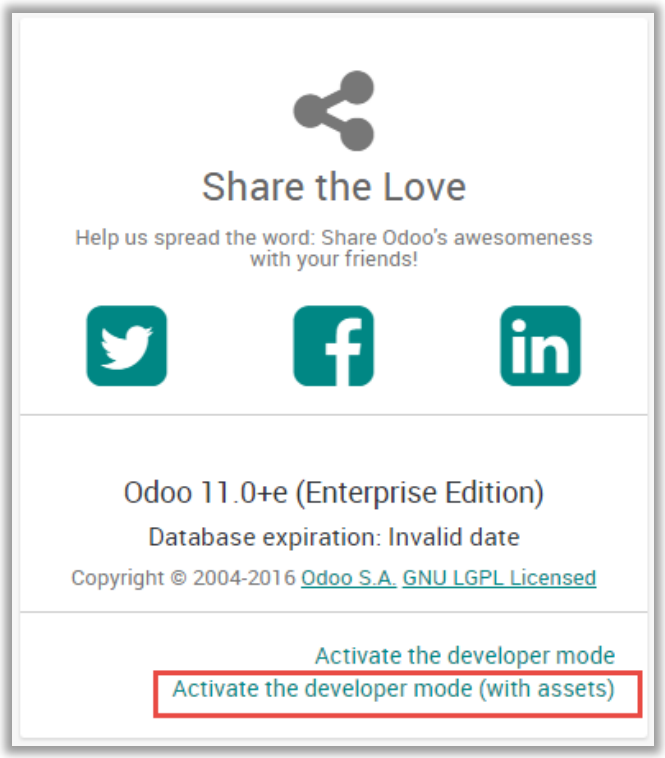
Installation

Installation Steps

- Download & extract the zip file.
- Check your Odoo add-ons path.
    - It should be same as defined in Odoo Config file.
    - Config files are mostly saved in /etc folder. For e.g. /etc/odoo.conf
    - Open Config file:
        - Give the command: sudo/etc/odoo.conf
        - Config file content: addons_path = /opt/odoo/addons
- Open Terminal and go to download location
    - For e.g. if the download location path is: /home/odoo/Downloads then the command to be written in the terminal would be: cd/home/odoo/Downloads
- Copy download modules to addons path
- Give the below mentioned commands to perform copy operation:
    - $cd /home/odoo/Downloads/kingfisher_pro
    - $cd v8
    - $sudo cp kingfisher_pro/opt/odoo/addons
- Restart Odoo server
- Login with the admin credentials in your odoo instance.

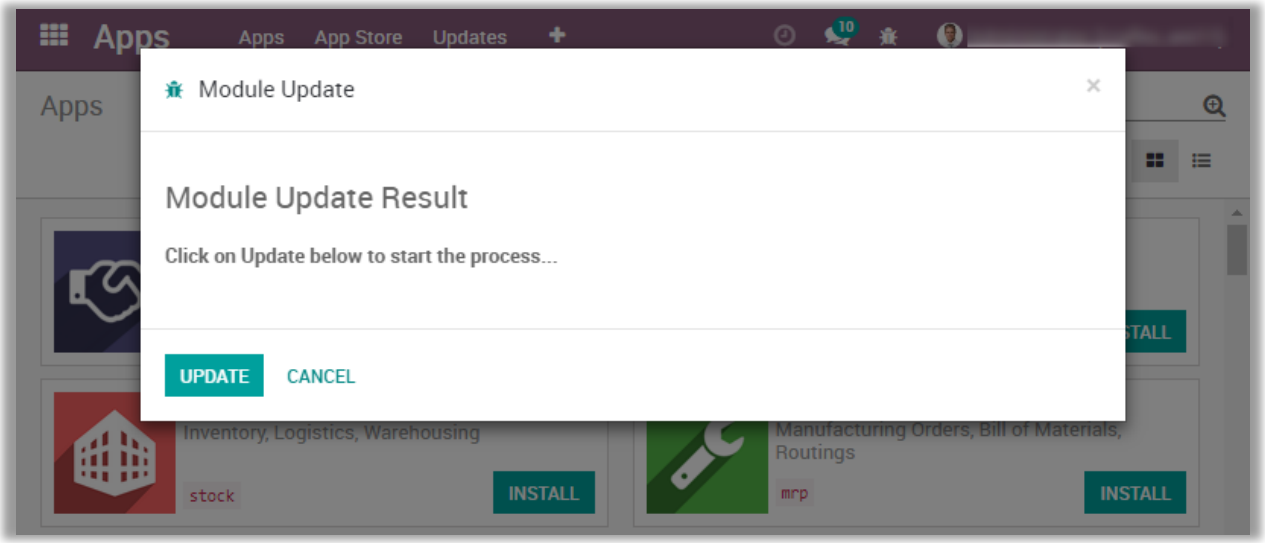
- Activate the Developer Mode

  - To activate Developer Mode, Go to **Settings -> Activate the developer mode (with assets).** Click on **'Activate the developer mode (with assets)'** and developer mode will be activated.

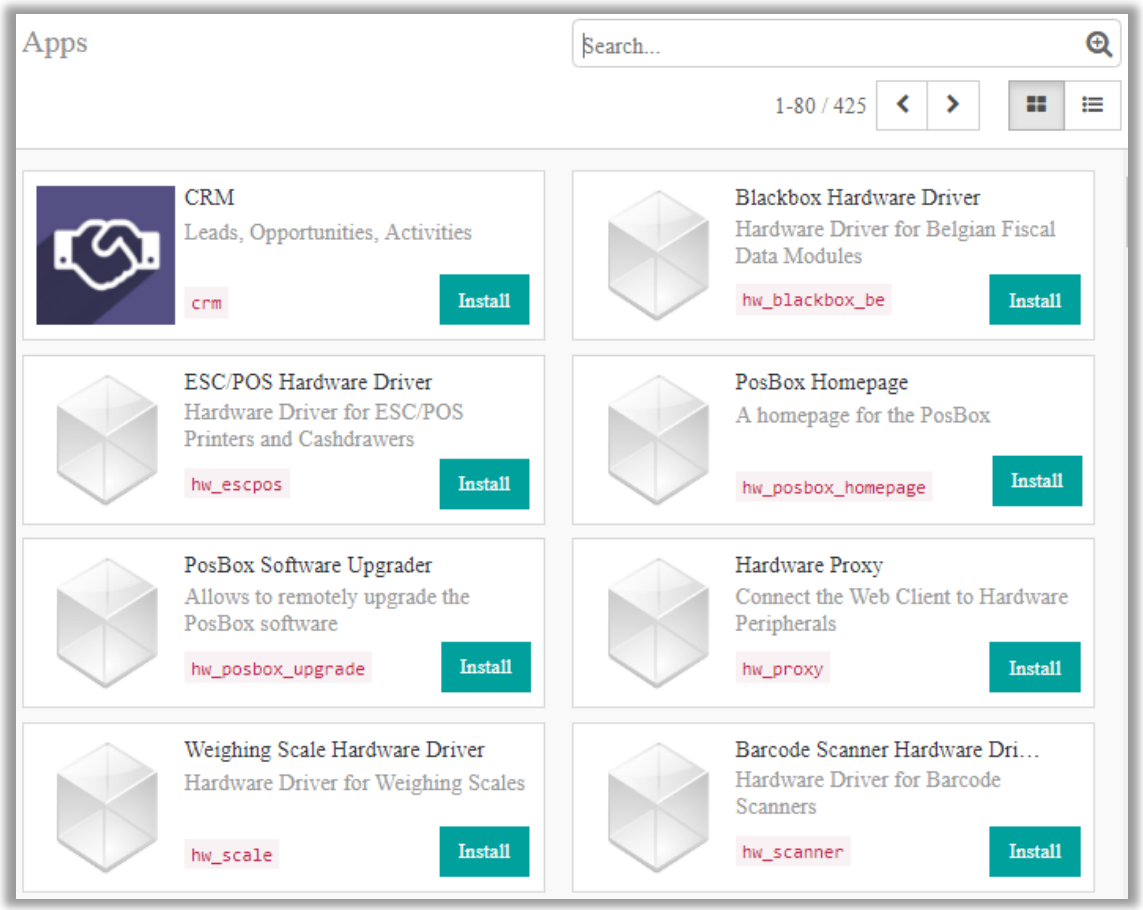


- Go to Settings/Update Apps List

  - Click on **'Update'** button.

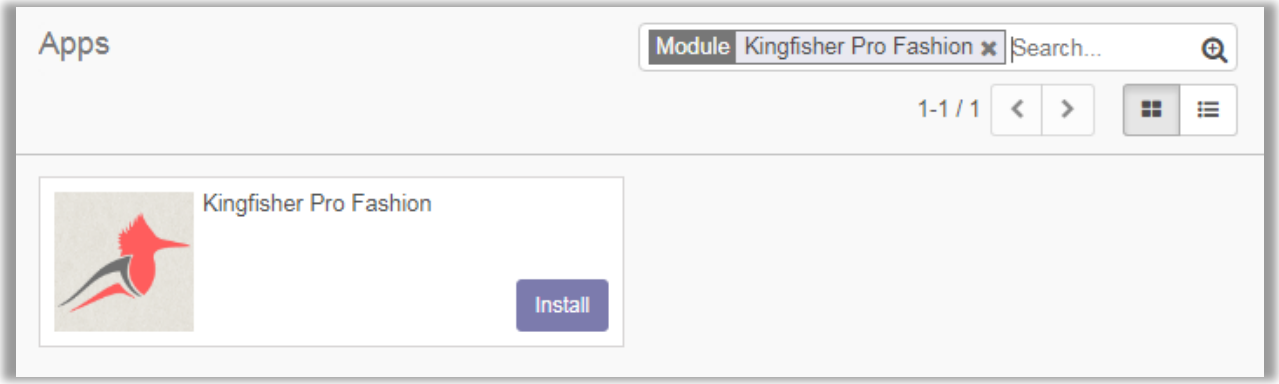


- Go to Settings/Apps
    - Remove search filter



- Enter module name in the search box provided in the top right corner of the page. For e.g. here write “Kingfisher Pro Fashion”.

- Click on **‘Install’** button.

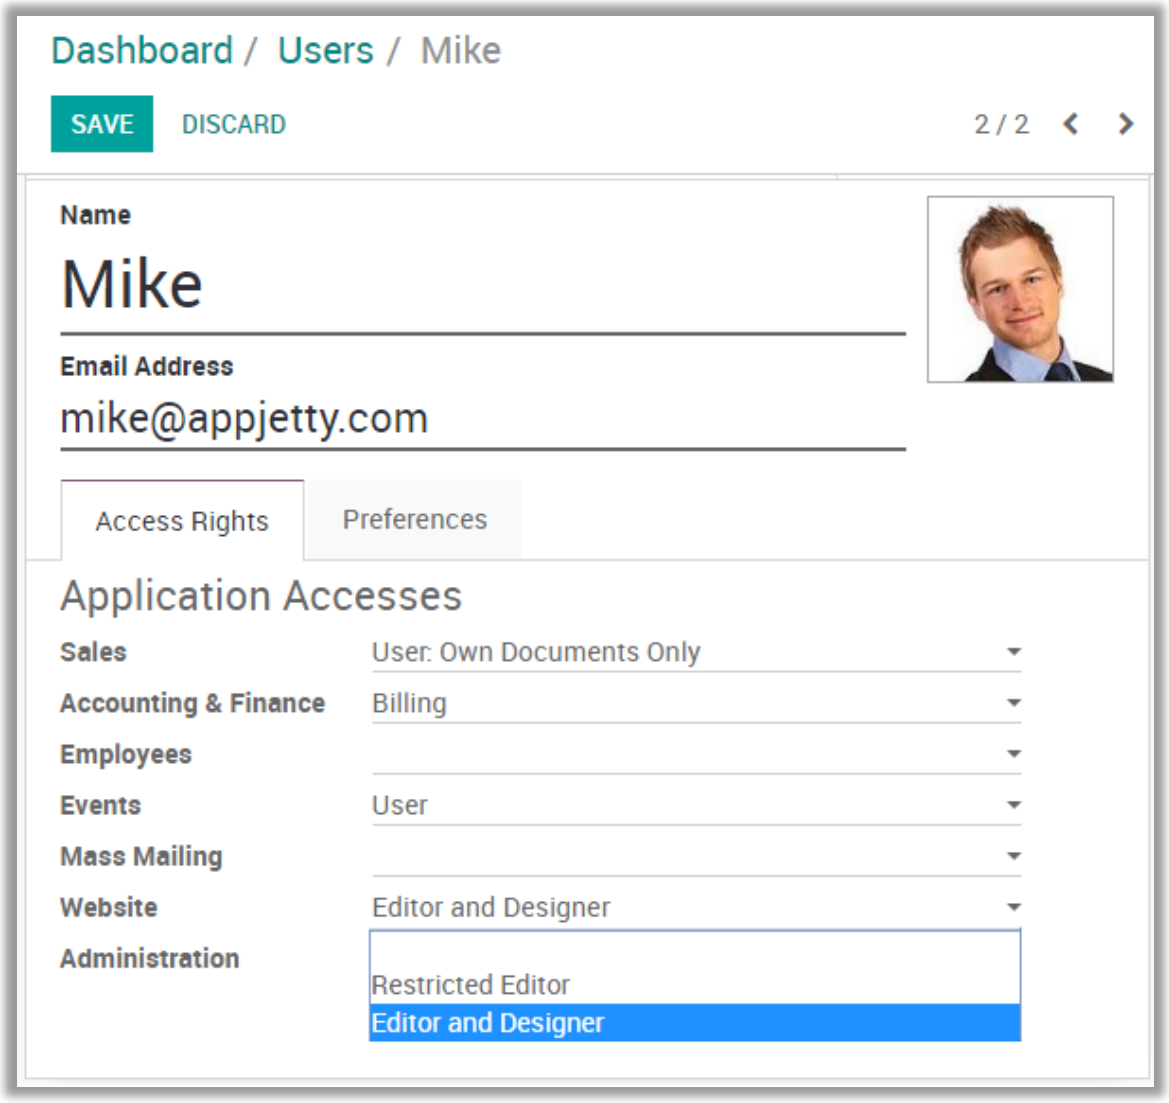


Access Rights Management

- Now after installing the theme, to manage the access rights of users go to **Settings -> Manage access rights**.

- By clicking on it you will be redirected to the Users module. Thereafter navigate to the detail page of the particular user for which you want to manage the access rights.

- Now under **'Access Rights'** tab from **'Website'** dropdown list select the **'Editor and Designer'** option to let the particular user modify the **'Slider Configurations', 'Product Tags' and 'Product Multiple Images'**.



Note: If the **'Restricted Editor'** option is selected user won't be able to edit the **'Slider Configurations', 'Product Tags' and 'Product Multiple Images'** options.

Theme Configuration

Configuring Home Slider Snippet

- Go to **Website -> Edit -> Insert Blocks -> Features**. Drag and drop Home Slider Snippet on the page where you want it.
