Introduction

WooCommerce Order Status Notifier plugin allow you the receive real-time notification right on your desktop screen letting you know about your orders. This plugin helps admin to easily recognize if any order is placed or any order is cancelled. It will also notify user for different order statuses like payment is pending, order is on hold, requested for refund etc.

Benefits of WooCommerce Order Status Notifier

- Get notification for each click when status of the order changes.
- Works with native WooCommerce statuses as well as custom added statuses.
- Roles based notification accessibility.
- Enable/Disable notification option for users.
- Customize messages for each order status.

Pre-requisites

Following points must be followed before starting the plugin installation:

- You should login as an Admin in WordPress.
- Only logged in users will get notifications.
- Check that your WordPress Instance is compatible with WooCommerce Order Status Notifier.
- Browser notification should be enabled.
- Latest browser version requires secure connection(HTTPS).

- “WooCommerce Order Status Notifier” plugin displays pop-up notification for admin and user based on order statuses. If action is performed by admin then logged-in user and other admin’s will get notification and if user has performed any action then admin’s will get notification.
- Log in to your WordPress instance as Admin. Go to “WC Order Status Notifier” tab in the menu.

- You will be navigated to “WC Order Status Notifier Page”, where the list of order statuses will be there.
- User can perform various action from list of order statuses.
- If you don’t want the get notified for specific statuses then you can also disable that order statuses.
- For enable/disable order statuses, select the order statuses that you want to enable/disable.

- Click on “**Bulk Actions**” and select the action you want to perform.
- Once you select the order statuses, click on “**Apply**” to save changes.

Add New Order Status

- If you want to add order status, navigate to “WC Order Status Notifier Page”, where you will get “Add New” button to add new order status.

The screenshot shows the 'WooCommerce Order Status Notifier' 'Add New' form. The left sidebar contains navigation links: Dashboard, Posts, Media, Order Status, Pages, Comments (4), WooCommerce, Products, Appearance, YITH Plugins, Plugins (6), Users, Tools, Settings, WC Order Status Notifier (selected), WC Order Status Notifier Settings, and FakerPress. The main form area has the following fields:

- Type:** A dropdown menu with 'Order placed' selected.
- Title *:** A text input field.
- Description *:** A text area with a note: 'Available placeholders: {order_id}'.
- Icon:** A dropdown menu with 'None' selected, an 'OR' separator, and an 'Upload New Icon' button. Below it, it says 'Allowed file types: jpg, png, gif (max file size 1MB)'.
- Sound:** A dropdown menu with 'None' selected, an 'OR' separator, and an 'Upload New Sound' button. Below it, it says 'Allowed file type: wav (max file size 1MB)'.
- Time Period *:** A text input field with '2' entered, and a note: 'Time in seconds'.
- Additional Role Notification:** A dropdown menu with 'None', 'Editor', 'Author', and 'Contributor' as options.

At the bottom of the form are three buttons: 'Save Changes', 'Preview', and 'Cancel'.

- **Type:** Select the type of status as per your requirement. You will get the list of default WooCommerce statuses as well as custom added statuses.
- **Title:** Add suitable title for order status.
- **Description:** Add suitable description which defines order status.

Note: In description field, if you add {order_id} in description message, then it will get replaced by original order_id in notification.

- **Icon:** Select icon from the list of icons or add upload new icon as per your necessity. Icon should be only in specified file format i.e. jpg, png, gif (max file size should be 1MB).

- **Sound:** Select icon from the list of icons or add upload new icon as per your necessity. Sound should be only in specified file format i.e. wav (max file size should be 1MB).
- **Time Period:** Set time duration (in seconds) for notification.
- **Additional Role Notification:** There is a list of user roles like: Editor, Author, Contributor, Subscriber, Customer and Shop Manager. Select roles to whom you want to send notification. You can also select multiple roles.
- Once you are done with all the description save order status. You can also preview the same.
